

FIH CERTIFIED FIELD BUILDER

FIH Certified Field Builders are companies that specialise in building hockey fields. The companies have a proven ability to construct fields to the standards the game requires. They have appropriate in-house civil engineering expertise for the design and construction of 11-a-side and Hockey 5s fields, operate quality management systems to ensure consistency in their work and provide comprehensive maintenance advice to their customers.

- **Global Elite Fields:** fields that meet the requirements for top level international competitions. Global Elite fields are surfaced with a FIH Global category Approved Hockey Turf.
- **Global Fields:** fields that meet the requirements for international and top level national competitions. Global fields are surfaced with a FIH Global category Approved Hockey Turf.
- **National Fields:** fields that meet the requirements for lower level national, regional and club play. National fields are surfaced with a FIH National or Global category Approved Hockey Turf.
- **Multi-Sport Fields:** fields that allow a number of sports to be played including community and development level hockey. Multi-Sport fields are surfaced with a FIH Multi-Sport, National or Global category Approved Hockey Turf.

DSN Sports Sri Lanka together with Altius Sports India and Tiger Turf New Zealand has partnered to invest and develop Sri Lankan Hockey Turfs.

About Altius Sports

Altius Sports & Leisure Pvt Ltd brings to India and SAARC nations the very best of outdoor and indoor sports' surfaces that are maintenance-friendly, durable, and high on player comfort and safety and lush and green all year through. With offices and warehousing facilities pan India and an in-house team that specializes in all verticals from design to building, Altius Sports helps you create world-class sporting infrastructure, converting dust bowls into arenas of dreams.

Our range includes synthetic turf, athletic tracks, polyurethane sports flooring, vinyl sports surfaces, acrylic sports systems and polypropylene interlocking tiles. The product range is maintenance free and if you are constrained for space, we can even take your facility to the rooftop and create a world-class playground in the skies. This extensive and complete range is accredited by all world-sporting bodies and we provide a comprehensive service that includes design, manufacture, construction, installation and maintenance. Not only that, we are here to illuminate your field with our light technology that shines on for years and years

Our Services

Design

Each installation is supported with a comprehensive CAD design showing layout, colours, line markings, measurements, etc

Fencing and Lighting

As part of the construction process, Altius completes court and field lighting, perimeter fencing and supplies a range of fixed and mobile accessories such as nets and goals.

Construction

The Altius civil team specializes in the design and construction of the correct sub-base for your site. This starts with a pre-inspection of the ground so that we understand the unique challenges of your site; design and construction plans, including drainage and lighting and of course, civil works. Our attention to detail ensures a high quality base ready for the installation of your surface

Manufacture

We control manufacture from raw material right down to the finished product. This ensures that the complete manufacturing process is built such that a world-class surface is delivered, adequately supported by our meaningful product warranties

Installation

Altius' team of expert installers is adequately trained and experienced, adept at their job and use specialized equipment to deliver a world-class finished product

Maintenance

To preserve the quality and playability of your surface, it is important to regularly maintain it. Our trained team offers such maintenance services to ensure an enduring experience.
